**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 16-17, 22-25, 30-31 are rejected under 35 U.S.C. 102(b) as being anticipated by McGuire et al.

McGuire et al. teaches individual dosages of shark cartilage extract and tamoxifen and a combined composition of shark cartilage extract and tamoxifen. Since the dosages were first prepared individually and combined, these compositions fall within the broadest reasonable interpretation of a kit and therefore meet the limitations of both the composition claims and the kit claims.

Claims 16-17, 19-20, 22-26, 28-31, and 33 are rejected under 35 U.S.C. 102(b) as being anticipated by Dupont et al. (U.S. Patent 5,618,925).

Applicants have defined radiotherapy as falling within the meaning of the term “anti-neoplastic agent”. Since radiation therapy cannot truly be combined with a shark cartilage extract into a composition of matter, broadest reasonable interpretation of the claims that encompass a composition of shark cartilage extract and an anti-neoplastic agent reads on a composition of shark cartilage extract alone, when that anti-neoplastic agent is radiotherapy.

***Allowable Subject Matter***

Claims 18, 21, 27, and 32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
